<u>Comments/ Historical Information</u> The administering agency for this fund has changed from Toxics/Org 3960 to Secretary for Environmental Protection/Org 0555. Chapter 418, Statutes of 1993 created the Unified Program Account and included a number of provisions that would reform and streamline the regulatory and permitting process of the State and consolidate various hazardous waste regulatory activities at the local level (e.g., underground storage tank regulation and hazardous materials emergency response planning). The consolidated programs are administered by a local agency known as a Certified Unified Program Agency (CUPA). State agencies, with Toxics as the lead agency, oversee the CUPAs. State agencies recover their costs through a surcharge on the unified fee that regulated entities pay to the CUPAs, and the surcharges are deposited in the Unified Program Account.
